

Subject: Working remotely? We can help make it easier

March 19, 2020

We make it easy to do business

Legal & General America has solutions that let agencies submit and process applications, and deliver policies, all without using paper

Due to unprecedented actions by state and local governments to slow the spread of COVID-19, some of our agency partners have had to move to remote operations. We want to help make this transition as seamless as possible for our affected partners and clients.

Take advantage of online tools and digital processes that can help you navigate the current situation:

- **Drop a ticket** from our Partner Dashboard in minutes
- **Let AppAssist** take the burden of app. fulfillment and administration
- **Use eDelivery** for digital signature, payment and delivery of policies
- **Submit checks** electronically using Check21 imaging service
- **Download policies** online from the Partner Dashboard
- **Upload documents** online quickly by choosing the "My Uploaded Documents" tab on the Partner Dashboard
